

Originally developed as part of the PARis platform, the PRISM portal is the smart way to access and manage your plan documents and reports electronically.

Methodology

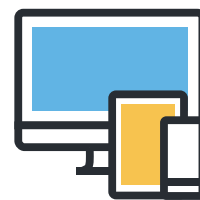

Prism Document Distribution Platform

PRISM also works with our RaaS and InterSec Research solutions. You can now offer your clients and plan participants immediate access to documents via a web portal or integrated within your own website.

It's Fast

No delays. No wait-time. No surprises. Access your plan documents and reports quickly and get updates instantly.

It's Convenient

PRISM is compatible with any device -- all you need is a web browser. Access to critical information is at your fingertips. Anywhere. Anytime.

It's Comprehensive

PRISM is much more than a document delivery and repository system. It maintains a systematically categorized archive of all your documents and communications.

It's Secure

PRISM is protected by 512-bit encryption for complete protection during transmission. Access to the portal is secured with an industry-standard password policy.
